Dear Beverly,

Australian Patent Application No. 38436/85

Thank you for your instructions of the 25th February concerning the request for examination in this case. I have now instructed Callinan to proceed with the request for examination. I have asked them to replace the existing claims in the application by the attached set of new claims 1 to 7 drawn from the corresponding application in Argentina. The original claims in the Australian application were rather a mixed bag, being based on a set of American claims which was revised early in the prosecution of the U.S. case. I thought, therefore, it would be better to start with a more sensible set of claims.

Yours sincerely,

P. A. SMITH
